

GUIDE to MEASURING

This simple guide has been developed during the coronavirus lockdown to help parents decide what size to order if sizing facilities are suspended.

The correlation chart for your school is shown on the webshop but relies on the correct chest and waist size being known. If sizing sets are unavailable for use this guide will help. As stocks were ordered based on normal yearly requirements we ask that you do not order several of each size and return unwanted garments as this will lead to stock shortages and slow down our operations in the warehouse which is working under new social distancing rules.

If the chest measurement is very close to a size and a pullover is to be worn under a blazer you may need to choose the next size up. Many thanks for your patience during the pandemic.

School Colours Direct

STEP 1 – Measure the chest and waist with a tape measure.

STEP 2 – Use the correlation chart below to choose the size needed.

All skirt waists are exactly as measured (i.e if you measure a 30 inch waist you need a 30 inch skirt).

STEP 3 – Only if you want to check the key garment measurements. Please remember our blazers come with a Smartsleeve® that can be adjusted down by 1.5 inches and can be seen on our website <https://www.schoolcolours.co.uk/smartsleeve>. Blazer sleeves can be easily shortened by sewing in a tack on each side after folding up to the right length.

The basic blazer specifications are below; please remember garments need ease in the chest so a size will always measure between 3 and 5 inches more than the wearers chest measurement:
